REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art of record, which is the most pertinent art found fails to teach and/or fairly suggest the instant invention. The prior art does not disclose or suggest the addition of a water-soluble acrylic polymer in two steps. Applicant has shown, in Examples 2-3 and 5-6 of the specification, the unexpected results achieved when the water-soluble acrylic polymer is added in two steps namely that the resulting monoazo pigment composition showed remarkably improved flowability and resistance to clogging of a printing plate, when compared with Examples 1 and 4 in which the water-soluble acrylic polymer was added only at the time of laking.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anthony J. Green whose telephone number is 571-272-1367. The examiner can normally be reached on Monday-Thursday 6:30-4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jerry Lorengo can be reached on 571-272-1233. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
